

FAASTeam presents:

Setting Up Your Airplane in ForeFlight with Mike Jesch A VC99s Pilot Proficiency Webinar

Setting up an aircraft properly in ForeFlight will enable you to plan and execute your flight plan more effectively and accurately.

Directions: This is the fourth in the Ventura County 99s series of webinars about ForeFlight. If you want to attend the seminar or only watch the recording, please register for the webinar. On or before September 22, 2021, we will send you a link where people who missed the webinar or want to watch it again can watch a recording. WINGS credit is not available if you only watch the recording.

Please register in advance. Our Zoom membership limits the number of attendees we can accommodate. To make sure you have a virtual seat at the webinar, we recommend you preregister early and check in for the webinar 5-10 minutes in advance. If attendees exceed our capacity limits, the coverage will be directed to a YouTube Live channel to watch the webinar.

Use this link to register for the September 15, 2021 webinar:
