

FAASTeam presents:

Weather Risk Assessment Simplified

In this 60 minute webinar, you will learn the more advanced skills of weather risk assessment within a Preflight Brief. Delia will demonstrate her method to clarify and add certainty to often conflicting weather information.

- Learn the top tools to identify each of the six hazards
- Learn the tool most pilots rely on—that is actually the LEAST reliable tool (and what to use instead)
- How to identify “invisible” hazards.
- Recognizing LLWS even when it's not forecast.

This is our level 3 class for more experienced pilots, however, it can also benefit low time pilots.

Note: When you register you will receive emails from Easy Webinar or Fly-Rite. You can easily opt out anytime. Look for the “unsubscribe” link at the bottom of each email.
