

Seminar Schedules - Southwest Section Meeting – Saturday, Sept 30

1:30 – 2:30pm		
Time	Title	Speaker & Seminar Info
Seminar 1 1:30 – 2:20pm: EAST Clipper Room	Make Your Mistakes Count: Understanding NASA ASRS Aviation Safety Reporting System	Becky L. Hooey, Director, NASA Aviation Safety Reporting System (ASRS) Join Becky Hooey, NASA ASRS Director, as she shares a behind-the-scenes look at the NASA Aviation Safety Reporting System. She will take us through the day in the life of a “NASA ASRS report” and discuss how your report can make a difference in the airspace system and how other pilots and drone fliers can learn from your safety experiences.
Seminar 2 1:30 – 2:30 WEST Clipper Room	Tips and Tricks for flying into the 2024 Spring SWS Meeting. WINGS credit available.	Barbara Filkins, ATP, CFII, AGI, VC99 Each airport and region has special challenges. To encourage members to make the next section meeting a fly-in destination, this class will discuss planning and preparing for your flight into Reno, Nevada for the Spring Southwest Section Meeting
2:30 – 3:30pm		
Time	Title	Speaker & Seminar Info
Seminar 3 2:30 – 3:30pm EAST Clipper Room	Beyond the “Barf Bag:” In-Flight Medical Emergencies and Survival Tips	Cindy Tait, EMT-P, RN, MPH, VC99 As the PIC are you prepared to manage a medical, traumatic, or psychological emergency while simultaneously maintaining safe operations of your aircraft? This session will provide tips on how to assess and manage an in-flight passenger or pilot medical emergency including communication with ATC. Additionally, survival tips and techniques will be covered specific to aviation.
Seminar 4 2:30 – 3:30pm WEST Clipper Room	The World of Aerobatics: How You Too Can Invert your Horizons	Judy Phelps, Master CFI-Aerobatic, DPE, VC99 How can a pilot get started in aerobatics? Why should a pilot learn aerobatics (or upset recovery)? How much training can you expect? What can you do when you learn aerobatics? What does it take to compete or perform?
