

2023 Ninety-Nines Fall Southwest Section Meeting

Each of us may have thought about learning aerobatics for various reasons -- for fun or to improve our skills -- but we may have stopped short because we can't really find the answers to questions such as:

- How can a pilot get started in aerobatics?
- Why should a pilot learn aerobatics (or upset recovery)? How much training can you expect?
- What can you do when you learn aerobatics?
- What does it take to compete or perform?

Join Ventura County 99, Judy Phelps, Master Instructor Aerobatics and DPE, in this seminar as she answers these questions and more.

West Clipper Room
