

Crew Resource Management for Pilots and Operators

When Human Factors are considered before and during flight performance will be improved! Video and discussion focusing on safety. We'll watch a very well produced video that captures a fictional charter company's daily pilot activities, and we'll then explore the challenges real pilots might face, and the solutions available to us.

Drive to the building & parking lot by using the entrance for Whiteman Airport located on Osborne St. just east of San Fernando Road in Pacoima. Plenty of free parking. We will meet in CAP Meeting Room #1, which is very visible from the parking lot. Seminar Length 2 hours.

A message from the National FAASTeam Manager
