

Beyond Approach Understanding the Plates Part 1

Unleashes the picture of an IFR Approach as depicted on Approach Charts (Plates) and translates what the symbols mean, and what the "plate" tells us! We'll understand what we need to do to fly an approach successfully.

This Seminar is intended for those thinking about an IFR Rating, and for the Smart GA Pilot that would like a Refresher. It is NOT really intended for the professional IFR pilot that regularly flies Part 135, etc. This is Part 1.

Enter the airport area at the Osborne St. main entrance just east of the intersection of Osborne and San Fernando Road. Plenty of free parking. Drive to far end of the road and park near the CAP building. Seminar length is 2 hours.

A message from the National FAASafety Team Manager
