

Getting Out of Your Comfort Zone

Flying involves risk. But if we play it too safe, we risk losing the skills that we need to fly safely. In this session we will dive into the relationship between your Comfort Zone and your Competence Zone, and how they relate.

We will present and discuss practical solutions to safely take risk and "get out of your comfort zone" so you can maintain and grow key flight and decision-making skills.

We will also discuss the difference between personal minimums versus personal standards, and how you can track and improve them over time, to help make you a better, safer, and more informed pilot.

The session will begin with a presentation, which will open up into an interactive format for each attendee to identify an area of improvement and create an action-plan to address it.

Event Details

Thu, Oct 2, 2025 at 17:30 PDT

SBA Airport Admin Building

601 Firestone Road

Conference Room

Goleta, CA
