

Saturday Morning FLY SAFE Meeting on Managing RISK for SAFER FLYING

Event Details

Join us for our continuing series of safety meetings at KWJF which we call Saturday Morning FLY SAFE. This seminar will focus on RISK MANAGEMENT. In our daily lives, we constantly manage risk. As pilots, we are exposed to additional risk. In flying, how we manage that risk is critical to flight safety. CFI Joe Biviano takes an in-depth look at risk across pilot experience levels and different kinds of flight operations, and offers techniques and strategies to better manage risk during the planning and execution of each flight.

The presentation will be interactive and we encourage participation by student pilots, pilots new to the area, and experienced pilots and flight instructors who can add their expertise to the discussions.

From Hwy 14 in Lancaster, turn West on Ave G. Turn right at the Fox airport sign. Turn left on one-way circular road in front of terminal building.

Sat, Apr 11, 2026 at 10:00 PDT
William J Fox (KWJF) Airport
4555 W Ave G
Terminal Building
Lancaster, CA
