

Saturday Morning FLY SAFE Meeting - Safety Lessons from Alaska Float Flying

Event Details

What happens when your "runway" is a glassy fjord...your alternate is miles away...and the weather is already closing in?

Step into the real-world cockpit of a Part 135 Alaska float plane operation, where every decision carries risks vs rewards. Whether you are a student pilot or seasoned aviator, you will walk away with sharpened Aeronautical Decision-Making (ADM) skills and a renewed respect for disciplined decision-making

Sat, May 9, 2026 at 10:00 PDT
William J Fox (KWJF) Airport
4725 W Ave G
Terminal Building
Lancaster, CA

Contact: DONNA LYNN KNIGHTON

Select #: WP01143270

Representative DONNA LYNN
KNIGHTON n/a

Carl Intriago (CFII/MEI) will use his recent experience as a commercial float plane pilot in Alaska to talk about safety scenarios from that challenging environment that also apply to all pilots, and give us tools to manage unique risks in our own flying. With a background in film and storytelling, Carl brings a dynamic, engaging presentation style. He blends technical expertise with vivid, real-life scenarios that resonate with pilots at every level.

Come and learn about a unique and BEAUTIFUL kind of flying, and take away some new decision-making tools.

From Hwy 14 in Lancaster, turn West on Ave G. Turn right at the Fox airport sign. Turn left on one-way circular road in front of terminal building.

Seminar Length is 2.0 hrs.
