

Hangar Talk Saturdays (KVNY) Emergencies with a Cessna Citation

What happens when high performance turbine flying meets real-world emergencies and pilot decision making? Join us for an in-depth look at Cessna Citation operations, emergency scenarios, and the thought process required to safely manage high-workload situations in turbine aircraft.

This seminar will explore PIC responsibility, FAR 61 and 91 operational compliance, crew resource management, weather hazards, IFR operational considerations, anti-icing, wake turbulence, wind shear, CFIT awareness, fuel management, aircraft systems knowledge, runway and crosswind limitations, alternate airport planning, ATC compliance, and emergency considerations unique to Citation operations.
