

Pilot Roundtable - What Would You Do?

Join us for an engaging hangar flying session focused on building real-world aviation skills and judgment. Through a realistic in-flight scenario based on an unknown engine issue while flying in IMC, we'll facilitate lively discussions that allow pilots to share experiences and insights.

During this interactive seminar, you can expect:

- Thought-provoking flight scenarios to exercise decision-making
- Open dialogue with fellow pilots about handling various situations
- Valuable perspectives on topics that deepen flying knowledge
- Boosting confidence in routine operations
- Sharpening abilities to manage abnormal circumstances

Be sure to bring your tablets or devices so you can reference charts and materials as we analyze real-world flying examples.
