FAASTeam presents:

KWJF Saturday Morning FLY SAFE Meeting - Emergency Procedures Beyond the POH

Event Details

Have you ever had an emergency situation or multiple failures that were not adequately covered in your Pilot's Operating Manual (POH)? This seminar by an experienced CFI, test pilot and system safety engineer will cover practical emergency procedures and techniques, with a focus on enhancing preparedness, decision-making, and effective response during unexpected situations. The POH emergency procedures do NOT always contain details/guidance for off-nominal conditions, such as alternator failure during IMC or at night, vibrations, fuel/oil in the cockpit, or limited/reduced control response. In these situations, it is the pilot's responsibility to manage the emergency to a safe outcome. This presentation will review select emergency procedures under various conditions and provide insight on managing emergencies that we normally would not find in the POH.

Sat, Nov 14, 2026 at 10:00 PST

William J Fox (KWJF) Airport

4725 W Ave G
Terminal Building

Lancaster, CA

Contact: DONNA LYNN KNIGHTON

(661) 816-5103

pilotdonna@earthlink.net

Select #: WP01147241

Representative DONNA LYNN KNIGHTON n/a
