SoCal Airspace

Event Details

Tue, Jul 17, 2012 - 7:00 pm

Fullerton Public Library

353 W. Commonwealth Ave

Fullerton, CA 92832

Contact: Mike Jesch

(714) 588-9346

mcjesch@pacbell.net

Select #: WP0545183

Representative Mike Jesch

There is a modest fee for this event Southern California has some of the most complex airspace in the country, if not the world. It has a long and colored history of striking fear in the hearts of unfamiliar pilots, and may contribute to a lot of pilot deviations and even accidents. Long-time local area Flight Instructor, FAASTeam Lead Representative, and Chairman of the Southern California Airspace Users Working Group, Pat Carey, will walk us through the history and meaning of airspace changes, transition routes, and hot spots in our region, with an emphasis on the just-released LAX TAC.

Directions: Community Room. If flying in, please contact event host to arrange pickup.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
