

iPad and Foreflight tips and tricks

With new features being added regularly to Foreflight these days, it's more important than ever to stay on top of the situation, and make sure you're getting the best out of your iPad investment. Jeffrey Robert Moss "MossY" will take us through the very latest in iPad tips and tricks when flying IFR and VFR, with a special emphasis on getting the most out of Foreflight before and during flight. Even if you use another Aviation App, you're sure to take home lots of important information, so bring your iPad (make sure the database is current!) and learn what you've been missing! MossY is the 2010 National CFI of the Year, and a Master CFI. There is a modest fee for this event

Directions: AFI Main Hangar, next to self-serve fuel island west of the terminal building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
