

'Always on Final' - - Cross-country Adventures in a Vintage J-3 Cub

Each summer since 2004, Bern Heimos has flown his vintage 1939 Piper Cub coast-to-coast across America. Generally each adventure totals about 6,000 miles over a four to six week period. He chooses different routes to learn more about our country and to experience a variety of flying challenges.

The goal of the presentation is to bring a different paradigm to pilots considering “low and slow” cross-country flights. Let’s face it – if by low and slow we mean flying at the lowest legal altitude above ground, you are always on final approach...

Directions: All FAA Safety Classes are held on the 3rd floor. Please arrive early to check in and go through security.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
