

FAA Safety Team presents:

Free WEBINAR - Hello my name is Airspeed!

Come spend a few evening minutes with an expert who will walk you through an in-depth look at the humble Air Speed Indicator: Its history, how it works, the meaning of all those colored markings and why some speeds are not shown, and a look at a few different ways that it can fail. Mike Jesch is a professional airline captain who has been a pilot for 35 years. Mike holds ATP and CFI certificates and flies a Boeing 737 for a major airline in order to feed and care for his true love ["airplane" that is], a Cessna 182 based at Fullerton Airport. Mike is a member of CPA & CPS and has been a veteran formation instructor for multiple Cessna's 2 Oshkosh mass arrivals.

Directions: THIS IS AN ONLINE WEBINAR ONLY! YOU MUST CLICK ON THE LINK TO REGISTER
