

## Advanced Aircraft Systems for Commercial Pilots

Hands on event discussing and showing advanced aircraft systems pertaining to multi-engine aircraft. Provides good understanding of systems for individuals seeking the commercial pilot rating. Various systems will be discussed with the parts being on and off the plane for examination. Focusing on vacuum pumps, alternate air vs. carb air, landing gear systems, constant speed propellers, heating and cooling systems,

**Directions:** Southbay Aviation Hanger at 3481 Airport Drive, Torrance, CA 90505

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
