

Aircraft Maintenance and YOU!

As an airplane owner - or even a renter - it's important that you are aware of the regulations and procedures for making sure your airplane is in tip-top shape for safe flight. Around half the incidents in the LGB area last year involved a maintenance issue, so here's an opportunity to improve your awareness of this critical aspect of aviation safety. Our speaker, George Mahurin, is the Principle Maintenance Inspector for the FAA's Long Beach FSDO, and a long-time aircraft mechanic, still actively maintaining several GA airplanes. He'll review the regulations and cite examples of how small things can become big things when improperly handled, and what you can do to enhance your safety.

Directions: AFI Main Hangar, next to self-serve fuel island west of the terminal building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

Event Details

Tue, Apr 21, 2015 - 18:00 PDT
Aviation Facilities, Inc
4119 West Commonwealth Ave
Fullerton, CA 92833
