

# Basic Acro and EMT (and No, that Doesn't Mean Emergency Medical Tech!)

This, just might be an invitation addressed to you! Everyone will benefit from this evening; but the focus will be aimed toward the experienced pilot who now wants to know a little more about sensing a potential accident, and how best to fly their plane if something does go wrong. We'll cover how to go about spreading your wings a bit, in order to best enjoy some EMT and /or some ACRO training.

**Directions:** Plan to be at YANKS by 6:15 to check out the museum and get a seat. FLY-IN to KCNO & Taxi to Yanks. There is a modest fee for this event to support SoCal PA, please refer to <http://www.socalpilots.org> for details.

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

## Event Details

**Tue, Apr 28, 2015 - 19:00 PDT**
