

## Aircraft Electrical Systems

Tonight, we'll hear from battery expert Skip Koss on everything you need to know to understand and control your aircraft's electrical system. Including electrical storage and charging systems, through to the pathways those magical electrons take as they do your bidding on your aircraft, it's time to take a look behind those switches and dials and learn how to keep them moving.

There is a modest fee for this event

**Directions:** Exit the 5 or 91 Freeway at Magnolia Ave northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the west.

AFI Main Hangar, next to self-serve fuel island west of the terminal building.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details

**Tue, Jan 19, 2016 - 18:00 PST**

**Aviation Facilities, Inc**

4119 West Commonwealth Ave  
Fullerton, CA 92833

**Contact: Mike Jesch**
