Music In The Skies

It's uncanny, how many pilots are musicians, and vice versa. The two disciplines share many traits: study, practice, and planning. Then, when the show, or the flight, starts, flexibility and awareness become primary.

Let's explore the mindsets of the aviator and the musician and see if there are things we can learn from each other to improve our performances.

The process of training, practice, and execution, of a safe and fun outcome has a lot to share.

Our speaker tonight is Jay Mason, professional musician in many stage, studio, and movie productions. He is also a CFI based at SNA, and teaches saxophone and other woodwinds at Cal State Long Beach.

There is a modest fee for this event

Directions: Exit the 5 or 91 Freeway at Magnolia Ave northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the west.

AFI Main Hangar, next to self-serve fuel island west of the terminal building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
