

## Aircraft Maintenance and You

This seminar covers the importance of proper aircraft record keeping and entries, who is responsible for the aircraft airworthiness, what you should expect your mechanic to do and to document during an annual (or condition) inspection and during unscheduled repairs or maintenance. Post maintenance tips from experience.

**Directions:** If flying in, parking will be available in front of the American Aircraft Maintenance repair station hangar at the south end of the airport.

If driving, take I-405 freeway or CA-55 freeway to the CA-73, the CA-73 to the Bristol street exit, turn left at the signal onto Campus drive heading towards Orange County Airport, turn left at the Quail street signal. Follow the street to the right then turn left at the entrance to parking between the American Aircraft Maintenance hangar and the General Aviation Maintenance hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
