

Santa Monica Airport Operational Changes

Please join the SMO Tower and Airport Operations to learn more about the operational changes that have been put in place since the runway was shortened. This is a great opportunity to discuss issues and best practices for the new procedures. There has been a large increase in surface pilot deviations since the change and the FAA would like to help in educating pilots on how to prevent them. An additional meeting will be held on Wednesday April 4 at 700pm at the same location.

Directions: Please make sure you are using directions for the Bundy Campus at Santa Monica City College which is just South of the SMO Airport.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
