# Human Factors and Decision Making

Every fork in the road requires a decision. Learn some techniques to help you chose the right path. From assertiveness with ATC to saving Steve Jobs' life, Captain Schiff will describe some of the landmark decisions he's made and explain how the outcome has made him a safer pilot. You'll learn philosophical techniques that can help you do the right thing and what can happen when you do. Conversely, learn what can happen when you make the wrong choice.

There is a modest fee for this event

**Directions:** Exit the 5 or 91 Freeway at Magnolia Ave northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the west. AFI Main Hangar, next to self-serve fuel island west of the terminal building.

### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
