

N/A presents:

LA Area Hotspots and Dangerous LA Basin Flight Routes

Flying in the LA area is flying in some of the most complex airspace in the world. Enjoy and learn from a discussion focusing on reviewing airspace requirements, and those procedures you need to know for flying safely around the basin. We will expose certain popular, but dangerous flight routes, address practice areas and flight following.

This seminar will focus on procedures and routes to KEEP YOU SAFE!

Topics will include: ATC Communications, altitude requirements, traffic separation, radar service, transponder operation and noise considerations.

Our speaker is Ron Berinstein, CFII. Ron is the web master of the Southern California Airspace Users Working Group, scauwg.org. His mission is to improve LA airspace safety and help inform the flying public about hidden dangers in the LA airspace.

There is a modest fee for this event

Directions: Exit the 5 or 91 Freeway at Magnolia Ave northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the west. AFI Main Hangar, next to self-serve fuel island west of the terminal building.
