

N/A presents:

The Medication Maze

Whether flying under BasicMed or an FAA medical, all pilots are bound by the FARs regarding medication use. If you can buy it without a prescription, it's OK to fly while taking it... right? Maybe. Dr. John Phillipp, Senior AME, will help guide pilots through the maze of over the counter medications.

Doctor John T. Phillipp, MD is a Senior AME for the FAA; an owner of a Cessna 182G that he keeps and regularly flies out of Brackett Field in La Verne, California. He's rated in both Airplanes and Helicopters.

There is a modest fee for this event

Directions: Driving: Exit the 5 or 91 Freeway at Magnolia Ave northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the west.

Flying: Park in transient parking at the base of the ATC Tower. Venue is the AFI Main Hangar, next to self-serve fuel island west of the terminal building.
