# Weather Data in ForeFlight

Tonight we'll explore the wide range of weather data available from within ForeFlight. We'll look into the differences between "legal" and "non-legal" weather, recent enhancements to FF capabilities, and many of the different ways to look at all the weather products available and what they mean to us pilots.

While this seminar will be ForeFlight centric, most of the information will also apply to other EFB and web-based tools.

There is a modest fee for this event

**Directions:** Exit the 5 or 91 Freeway at Magnolia Ave northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the west. AFI Main Hangar, next to self-serve fuel island west of the terminal building.

### **A message from the National FAASafety Team Manager**
