

# Aircraft Maintenance for Pilots and Owners

From changing a light bulb, to your oil, to your engine, owners and pilots of aircraft need to know what to do, who can do it, and how to do it. This is where the Aviation Maintenance Technician comes in. Our guest tonight is Ben Kellogg, who operates a maintenance facility at the airport, and is going to share his years of experience in the field in how to make your AMT's job easier and helping you ensure the highest level of airworthiness in your aircraft.

**Directions:** Exit the 5 or 91 Freeway at Magnolia Ave northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the west. AFI Main Hangar, next to self-serve fuel island west of the terminal building.

## Event Details

Tue, Aug 20, 2019 - 18:30 PDT
