

FAASTeam presents:

California Zooming - Avoiding Wing Dings

A fun and informative look at an airline pilot's tips for safely operating your aircraft before and after you take to the air. Every flight begins and ends with ground operations, and therefore, it is a skill that should not be taken for granted. Topics include airport signage, markings and lighting, clearances, standardization, taxi etiquette, emergencies, low visibility taxi, and runway incursion avoidance.

Captain Gary Schank is a recently retired Boeing 737 Captain with Delta Airlines. For over 29 years, he has flown Boeing, McDonnell-Douglas and Airbus airliners all over the world. Type ratings: B737, A330, DC-9, CE-500, SA-227. Captain Schank instructed on the DC-9 for the airline and is also a CFI, a FAASTeam Representative, and an owner of a Bonanza A36. Captain Schank is also a member of the Flying Musicians Association, and is a practicing attorney.

Directions: To register, please proceed to this site: https://us02web.zoom.us/webinar/register/WN_xy6PEawQSKKPOyM3ZZIL8Q
Webinar will be conducted using Zoom.
A CalPilots member door prize will be awarded at the end of the seminar.
