

## The Voices In Your Head Set

This is your chance to speak directly with ATC personnel at SoCal TRACON. We'll receive a briefing on current and expected operations in the region, discuss focus areas that pilots should be particularly alert to, and best practices to improve the safety of your operations.

SoCal TRACON (SCT) is the busiest Terminal Air Traffic Control facility in the world. With a very dynamic, complex, and broad mix of traffic types, constrained by geographical and geological limitations, and encompassing almost every type of airspace ever invented, it's always a good idea to get and stay familiar with how the system operates to help keep you and the traveling (and non-traveling, for that matter) public safe. Whether you're a new pilot or a seasoned pro, whether you fly VFR or IFR, you're going to enjoy this presentation. Bring all your toughest questions and get them answered!
