

Non-Towered Airport Operations for General Aviation Pilots

Join us for an engaging and informative session on operating safely at non-towered airports. This presentation will cover the latest guidance from FAA Advisory Circular AC 90-66C, "Non-Towered Airport Flight Operations." We'll also review relevant sections of the Airplane Flying Handbook and explore valuable WINGS online courses that can enhance your knowledge and flying skills.

Key topics will include:

- Best practices for communication and traffic pattern procedures at non-towered airports**
- Understanding the latest FAA recommendations and safety considerations**
- Applying knowledge from the Airplane Flying Handbook to real-world scenarios**
