

VMC Club Challenging Flight Scenarios with Jay Steffenhagen

For our July EAA Chapter 92 meeting, join us for a discussion of various challenging flight scenarios, which if not handled properly by the pilot, could easily lead to a serious accident.

The scenarios are presented to the group for discussion, under the guidance of a flight instructor. Each scenario is introduced with a short video describing the circumstances, and the scenarios are designed to confront the pilot with making difficult decisions on how / whether to initiate or continue the flight safely.

There are no right or wrong answers, but the group gets to define and evaluate the risks and sort out the best way to proceed.

In addition, there will be several “Questions of the Month” on rules and regulations and recommended operating procedures.
