

## Long Distance Cross Country Flight Planning

We will discuss methods to plan a long cross country flight that will take a couple days to accomplish. More than just planning several small flights, long distance flying requires taking much more information into consideration. Using a flight from Fullerton to Oshkosh, WI to attend EAA Airventure, we'll talk about some of these issues and how to prepare.

We'll also hear from a few other local pilots who are also planning to attend Airventure this year, and how they intend to contend with these issues.

Our speaker is FAPA Vice President and FUL-based CFI Mike Jesch. He has flown to Oshkosh a dozen times, as well as many other even longer trips.

Meeting room is the main facility for Hangar 21, where Magnolia Ave ends at Commonwealth Ave. This event will be approximately 1.5 hours.

A message from the National FAASTeam Manager
