

AirVenture 2025 Forum - AI to Enhance Flight Training

Flight training is costly, and key lessons are often missed in busy cockpits or rushed debriefs. NAVI AI records audio and flight data, then uses an FAA-trained language model to highlight learning moments. Students review debriefs later to boost retention.

EAA Forums- Workshop Classroom C. This event will last approximately 1.0 hour.

A message from the National FAASTeam Manager
