

## Automation In Flight - Using Your Autopilot

Automation - VNAV and Approach. The new generation of digital autopilots and navigators opens new options for vertical navigation and maneuvering for both visual and instrument approach. This seminar discusses autopilot operation and limitations in this new environment.

Discussion will include:

- Recommended operations;
- Use of Automation/Autopilot
- VNAV
- Approach techniques using modern avionics

JWA Administration Building located at Paularino and Airway Ave. Parking is located at the back of the building past the guard house. This event will be approximately 1.5 hours.
