There are many things to consider when transitioning to a new aircraft, depending on the aircraft and how it's equipped. The goal is to comprehend what's required to get a good, thorough check out from an experienced and knowledgeable CFI, in a different make and model aircraft than what you have flown before. The objective is to make you a good, safe, competent pilot!

Pacific Skies Aviation hangar on the west side of the General Aviation building and transient parking spaces. This event will last approximately 1.5 hours.
