

Getting a Good Aircraft Checkout

For our April EAA Chapter 92 meeting, our speaker, John Mahany, will discuss what's involved in getting a good aircraft checkout. There are many things to consider now, depending on the aircraft, and how it's equipped. The goal is, what's required to get a good, thorough check out, from an experienced and knowledgeable CFI, in a different make and model aircraft than what you have flown before, so that you will be a good, safe, competent pilot.

On Sand Canyon Avenue between the 5 and 405. Corner of Sand Canyon and Waterworks Way. Turn LEFT after entering parking lot from Sand Canyon. If entering from Waterworks Way, continue through parking lot to SECOND building. Follow signs to Community Conference Room in 15500 Sand Canyon building.

Meeting will last approx 1.5 hours
