

Vertical Navigation (VNAV) and Automation for VFR and IFR

More and more airplanes are equipped with advanced capability, yet many pilots are not familiar with use of VNAV and automated systems. We will take a fun and practical look at use of VNAV and autopilots.

JWA Building is at the corner of Paularino & Airway Avenue on the west side of KSNA. Parking and entrance is at the back of the building. This event will last approximately 1.5 hours.
