

## Talking to Communicate

Knowing what to say, communicating what you know, and understanding what you hear, is critical to being a pilot. Many pilots use archaic or local terminology for communicating, which can fail when flying at other destinations. The FAA has evolved a language glossary to add safety and comprehension to our radio calls. Material is presented as scenarios to inspire discussion. Remember, terminology is key to unlock all your resources!

Our speaker is Gary Palmer, a Torrance based CFI, FAASTeam Representative, and member of the Torrance FAA Runway Safety Team.

Meeting room is the main facility for Hangar 21, where Magnolia Ave ends at Commonwealth Ave. This event will last approximately 1.5 hours.
