

The Voices In Your Head Set

Come speak directly with ATC personnel from SoCal TRACON. We'll receive a briefing on current and expected operations in the region, discuss hot spots that pilots should be particularly alert to, and best practices to improve the safety of your operations. The Santa Ana Canyon is one such area; learn why, and what you can do to keep safe in this busy area.

SoCal TRACON (SCT) is among the busiest Terminal Air Traffic Control facilities in the world. With a very dynamic, complex, and broad mix of traffic types, constrained by geographical and geological limitations, and encompassing almost every type of airspace ever invented, it's always a good idea to get and stay familiar with how the system operates to help keep you safe. Whether you're a student pilot or a seasoned pro, whether you fly mostly VFR or IFR, and whether you normally utilize ATC services or not, you're going to enjoy this presentation. Bring all your toughest questions and get them answered!
