FAASTeam presents:

Pilot Controller Forum with SoCal TRACON

Flying in southern California is challenging. Numerous airports have overlapping arrival and departure routes. Rob Reddeg, NWP NATCA Safety Lead at SoCal TRACON is always a wealth of information. Rob will discuss airpace, flight restrictions, communications and best practices for dealing with ATC.

Entry to JWA Adminstration Building Meeting Room is at the rear of the building adjacent to the parking lot. This event will last 1.5 hours.

A message from the National FAASTeam Manager
