

AWP-204 AZ FAAS Team presents:

Advanced Preflight - Aircraft Airworthiness

Many accidents have been caused by pilots being unaware of their aircraft's airworthiness directive compliance status and inspections compliance status. There have also been numerous accidents caused by pilots only performing a brief glance at the condition of their aircraft and not noticing an unairworthy condition. This seminar will focus on proper aircraft preflight actions, including aircraft records and physical inspections. A few NTSB accident records will be analyzed to assess how past accidents may have been prevented. The event will last approximately 2 hours.

Directions: ***Entering at Dan Carrell Dr.*** Enter the ERAU campus from Willow Creek Rd. at the intersection of Dan Carrell Dr. and Heritage Park Rd. (this is the only entrance with a traffic light). At the round-about, exit at the first opportunity - north on Dobberteen Dr.. The DLC, building 20, is on the left side, about .1 miles from the round-about.
Entering at Haas Blvd. Enter the ERAU campus from Willow Creek Rd., northernmost entrance, on Haas Blvd.. At the first four-way intersection, turn left on Dobberteen Dr.. The DLC, building 20, is on the right side, about .1 miles from the intersection.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
