

iPAD WORKSHOP FLY-IN TO GEU AIRPORT

DRIVING DIRECTIONS TO WESTERN MARICOPA EDUCATION CENTER (WEST-MEC)

FLY-IN DIRECTIONS:

Fly-Ins park at the GA Terminal. Walking isn't that far, about two to three thousand feet from the main terminal, even less from the FBO.

There will be two competing events, the Young Eagles and the iPad Workshop. The Ramp at GEU is uncontrolled.

The Young Eagles aircraft will park next to the terminal building out front for pick up and drop off.

iPad Workshop fly-ins are asked to park either at the FBO or in transient parking tie downs. Tell the Ground Controller which event and where you would like to park.

If you plan to fly-in, please notify Dr. H. C. "Mac" McClure at faasteam.mac@gmail.com and Mike Cunningham at garbo007@cox.net.

DRIVING DIRECTIONS:

For those coming from the Far East valley take I-10 east to loop 101 and head north.

It is easy access off Loop 101, exit west on Glendale Ave, and go about two miles. It is the second stop light west of the freeway.

Turn left at Glen Harbor Blvd and proceed to the first available left turn, and back track into the campus entrance.
