

Southeast Arizona WINGS Seminar

Presentation on Mountain Flying covering weather, wind currents and associated hazards, effects of density altitude, emergencies, and CFIT awareness.

Find out how familiar you are with the capabilities, limitations, and operation of the aircraft you are flying with a safety quiz and group discussion.

Learn about some interesting but less known features of charts in conjunction with a brief review of what pilots should know.

Directions: Flying In: Transportation to the event and return to airport will be available. Please contact James Short (info below) before the event date if you need transportation.

Driving: from the intersection of Fry Blvd & SR 92 drive east 1 mile on SR 90; turn north on Guilio Cesare, then 4 miles to Public Works parking on the right. Look for event signs.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
