

## Maintaining Experimental and Light Sport Aircraft

A review and discussion of the maintenance issues and information for keeping aircraft in a safe condition for flight, for proper documentation, and for answers to who can do maintenance, what they can and should do, and how to do. If you wish bring some of your relevant maintenance documents for examples.

**Directions:** In north hangar east of rotating beacon

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
