

Arizona Summer Weather Flying Aircraft Performance and Maintenance (2017)

Video presentation and discussion of factors affecting flight safety with considerations of Density Altitude, aircraft performance and maintenance. Discussion will include survival during the hot and stormy Arizona summer conditions.

Directions: Enter main entrance from East side of 19th Ave, 1/4 quarter mile South of the Deer Valley intersection. Turn right into a parking lot West of the facility and park. Walk across to the building. Entrance is on the West side of the facility and will be illuminated. A guard will direct you to the conference room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
