Attorney And Assistant Aviation
Law Professor, Embry-Riddle
Aeronautical Univ.

You are invited to participate in AUVSI's Remote Pilot Council

TUESDAY, NOVEMBER 7, 2017 630PM- 830PM

Join AUVSI and the FAA for an interactive discussion on the state of the remote pilot community. Attendees are encouraged to voice their opinions and ask questions of their peers, AUVSI, and the FAA. Substantive dialogue between remote pilots is critical to furthering the cause of drone integration, and this is the opportunity to voice and prioritize concerns for regulation, needs from the industry, and professionalism within the community.

This is a free and open event, but space is limited. Register today.

ABOUT AUVSI

The Association for Unmanned Vehicle Systems International (AUVSI) is the world's largest non-profit organization devoted exclusively to advancing the unmanned systems and robotics community.

Serving more than 7,500 members from industry, government and academia, AUVSI is committed to fostering, developing, and promoting unmanned systems and robotic technologies.

ABOUT THE REMOTE PILOTS COUNCIL

The AUVSI Remote Pilots Council (RPC) was established to provide a forum for remote pilots to engage directly with one another and the FAA through ongoing in-person meetings, webinars, and surveys. The Council will provide feedback on real-world operation of UAS, including operational challenges and potential solutions for the industry and regulators, and prioritize the community's needs for additional regulation and improvements to existing regulation.

PROGRAM AGENDA

6:30PM- 6:45pm Opening Remarks
