

FAA Safety Team presents:

VMC Club Meeting - Mastering the Art of Aviation

Magic #25 - A Consequential Tragedy

This is an untold story of two parts: first the heavy Bomber of the 8th Air Force to first get to 25 missions and second, the Lt General selected to lead the invasion of mainland Europe in Operation Overlord. ?You may think you know the answers to these two, but it may surprise you! The answers are connected but, we promise you, they are not what you expect!

Please join us for this special presentation by John Wight, docent with the Airbase Arizona, Commemorative Air Force.

Note:This special presentation will be held in lieu of our regular VMC scenario based safety discussion.

EAA/VMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. Membership in theEAA/VMC Club is encouraged
