

**Scottsdale FAASTeam presents:**

# **Prescott Regional Airport Local Runway Safety Action Team Meeting**

## Runway Safety Action Teams

Runway Safety Action Teams (RSAT) bring local airport stakeholders together at least once a year to identify risks to surface safety at that airport and develop plans to mitigate or eliminate those risks. RSATs provide the foundation of the Runway Safety Program at individual airports. The RSAT meetings are the primary forum for pinpointing and addressing airport-specific risk in the surface environment. The product of an RSAT meeting is a Runway Safety Action Plan in which the stakeholders document and agree to pursue specific actions intended to improve surface safety. This meeting is scheduled for approximately 2 hours, if necessary.
