

CFI Open Forum - Second Quarter - All Pilots Welcome!-Hybrid

We will also look at the "Impossible Turn" the situation a pilot faces when experiencing engine failure immediately after departure and why the turn back to the runway is rarely successful. We will also hear from John Keith, Arizona's CFI of the Year about an engine malfunction after maintenance and how he prepared and handled the situation.

Helicopter Vortices can be as severe as aircraft wake vortices. We will review and discuss FAA recommended procedures for mitigating aircraft upset from this dangerous phenomenon.

From the AZ 101 (Loop 101) take the 7th Ave Exit north for 1 mile to Deer Valley Road. Continue straight through the traffic light into the Deer Valley Airport parking lot. You may park any where in the parking lot.

The CFI Forum will be in the Aeroguard classrooms building directly east behind the Aeroguard Hangar and Dispatch building that is closest to the parking lot. You may walk to the Classroom Building by following the perimeter road, east, that parallels Deer Valley Road. If you get lost, the Dispatcher, located inside the locked glass door on the main building (you will need to buzz the door) can direct you to the Classroom Building.

Event Details

Mon, Mar 25, 2024 at 18:30 AZST
Aeroguard Training Center - Deer Valley Airport
530 W Deer Valley Airport
Classroom Building
Phoenix, AZ
